| 9:00 a.m.                               | Participant introductions and reports - 3 minutes each                                                                                                         |
| 10:00 a.m.                              | BREAK                                                                                                                                                          |
| 10:20 a.m.                              | Resume status reports                                                                                                                                          |
| 12:00                                   | LUNCH                                                                                                                                                          |
| Program Progress Reports and Discussion |                                                                                                                                                                |
| 1:00 p.m.                               | Opening remarks - Jim Gibson                                                                                                                                   |
| 1:10 p.m.                               | Central Analytical Laboratory - Gary Stensland                                                                                                                 |
| 1:30 p.m.                               | Quality Assurance - Bernie Malo                                                                                                                                |
| 1:45 p.m.                               | Data Management - Garry Akland                                                                                                                                 |
| 2:00 p.m.                               | EPA Monitoring Plans - Franz Burmann                                                                                                                           |
| 2:10 p.m.                               | National Park Service Monitoring Plans - Ray Herrmann                                                                                                          |
| 2:20 p.m.                               | Joint CANSAP/NADP project - Jim Gibson                                                                                                                         |
| 2:30 p.m.                               | EPA/NADP Cooperative "Acid Rain" Project - Norm Glass and Ellis Cowling                                                                                        |
| 3:00 p.m.                               | Interagency Coordinating Committee - Ellis Cowling                                                                                                             |
| 3:15 p.m.                               | BREAK                                                                                                                                                          |
| 3:30 p.m.                               | Executive Committee Report and Discussion                                                                                                                      |
| 4:30 p.m.                               | Future Plans for Research on deposition Effects - John Skelly                                                                                                  |
| 5:00 p.m.                               | Organization of Subcommittee Meetings                                                                                                                          |
| 5:30 pm.                                | ADJOURN                                                                                                                                                        |
| 7:30 p.m.                               | Joint Regional Project Meeting                                                                                                                                 |

NC-141 - North Central Regional Project on Atmospheric  
Deposition  
NC-94 - Climate Resources of the North Central Region  
NE-48 - The Dynamics and Energetics of the Soil-Plant-  
Atmosphere Continuum  
NE-95 - Phenology, Weather and Crop Yields  
W -148 - Climatic and Phenological Models for Resource  
Planning

Subcommittee Meetings - to be arranged if time is available

Thursday - October 4<sup>th</sup>

8:00 a.m.	Subcommittee Meetings
10:00 a.m.	BREAK
10:15 a.m.	Continue Subcommittee Meetings
11:00 a.m.	Subcommittee Meeting Reports and Discussion
12:00	LUNCH
1:00 p.m.	Continue Subcommittee Reports and Discussion
3:00 p.m.	ADJOURN

## Participant List

<u>Participant</u>	<u>Affiliation</u>
Gerry Akland	U.S. Environmental Protection Agency
Van Baker	Colorado State University
Jon Bartholic	Michigan State University
Rick Berry	Atmospheric Environment Service
Don Bogen	U.S. Department of Energy
Heinrich Bohn	University of Arizona
Pat Brezonik	University of Florida
Stan Coloff	Bureau of Land Management
Derek Cowling	Grassland Research Institute, England
Ellis Cowling	North Carolina State University
James Galloway	University of Virginia
James Gibson	Colorado State University
A.R. Gilmore	University of Illinois
Norman Glass	U.S. Environmental Protection Agency
Richard Graham	U. S. Military Academy
Chuck Hakkarinen	Electric Power Research Institute
Allen Heagle	USDA - North Carolina State
J. David Helvey	USDA Forest Service
David Hershfield	USDA-SEA-ARi
Keith Huston	North Cental Association of Agricultural Experiment Station Directors
Patricia Irving	Argonne National Lab
Curtis Jackson	Georgia Experiment Station
Jay Jacobson	Boyce Thompson Institute
J. M. Kelly	Tennessee Valley Authority
Warren Knapp	Cornell University
Sagar Krupa	University of Minnesota
Michael Letchworth	USDA - North Carolina State
Steve Lindburg	Oak Ridge National Lab
Orie Loucks	Science Director, TIE
Bernard Malo	U.S. Geological Survey
William McFee	Purdue University
John Miller	NOAA
Brand Niemann	Teknekron Research Inc.
Stephen Norton	University of Maine at Orono
Mark Peden	Illinois State Water Survey
Dudley Raynal	SUNY - Syracuse
Hnas Riekerk	University of Florida
John Robertson	U.S. Military Academy
Dick Semonin	Illinois State Water Survey
John Skelly	Virginia Polytech Institute
Kenneth Steele	University of Arkansas
Gary Stensland	Illinois State Water Survey
Malcolm Still	Atmospheric Environment Service
M.A. Tabatabai	Iowa State University
Leo Topol	Rockwell International EMSC
Elon (Sandy) Verry	USDA Forest Service
George Wagner	University of Arkansas
Jerry Walker	University of Georgia
T. Craig Weidensaul	Ohio State University
Stephen Wilson	NYSERDA
Gene Wooldridge	Utah State University
